What is Easy Homes?

Blockchain based international trading and verification platform for real estate.

Bridge the real estate gap around the world and provide investors and property owners with a blockchain based automated assistance through which investors can rent property, trade property, exchange fiat currency with negligible fees and keep on improving to add value to real estate market.

FEATURES

BLOCKCHAIN BASED PROPERTY OWNERSHIP RECORDING SYSTEM

with blockchain based property listing system, which is built on consensus and hence avoid the third party risk of tampering

SHORT-TERM AND LONG-TERM RENTAL

offers listing and renting of properties all around the world. Using this users can rent any property for a period of less than 1 month (short term) or more than 1 month (long term).

PROPERTY TRADING

listing and trading of properties from around the world. Using this users can buy properties without worrying much about the legalities required to fulfill their dreams.

BLOCKCHAIN BASED DOCUMENT VAULT

The document vault is a decentralised storage where all important documents required during any property transaction can be stored. Some of the salient features of the vault include:

- The storage uses blockchain technology which is decentralised and highly available.
- The storage is highly secure as only authorised parties can access the vault.

FEATURES

COIN WALLET

A decentralised multi crypto asset storage system will be provided by the app that can store all major coins.

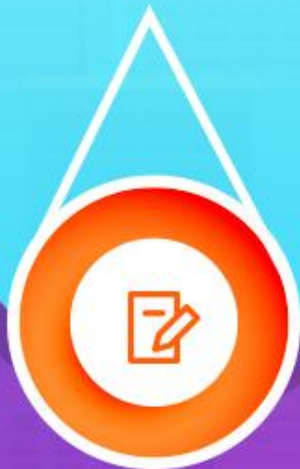

SMART CONTRACTS

Imagine how easy would it be if you can agree on the terms with lender/owner/buyer/tenant and let blockchain take care of the contract. Smart contracts are account holding objects on the ethereum blockchain. They contain code functions and can interact with other contracts, make decisions, store data, and send ether to others.

CRYPTO CURRENCY BASED TRANSACTIONS FOR TRADING AND LENDING

All the trading and renting transactions will be performed using crypto currency and hence avoid huge fees related to foreign exchange.

PHASE 1

- ✓ List Properties for trade and renting
- ✓ Blockchain Based Document Vault
- ✓ Expand in Asia and Africa
- ✓ Coin Wallet

PHASE 2

- ✓ Smart Contracts
- ✓ Property trading and renting
- ✓ Expand in Europe
- ✓ Crypto currency based transactions for trading

PHASE 3

- ✓ Blockchain based property ownership recording system
- ✓ Expand in America
